

**CITY OF BRANSON WEST
MISSOURI**

**DESIGN STANDARDS
FOR
PUBLIC IMPROVEMENTS**

Adopted October 15, 2002

**Southwest Missouri
Council of Governments**

**City of Branson West
110 SilverLady Lane
P.O. Box 2229
Branson West, MO 65737
(417) 272-3313**

CITY OF BRANSON WEST, MISSOURI

DESIGN STANDARDS FOR PUBLIC IMPROVEMENTS

TABLE OF CONTENTS

Article I General Requirements..... 1-1
Section 101 Short Title 1-1
Section 102 Purpose..... 1-1
Section 103 Jurisdiction..... 1-1
Section 104 Effective Date 1-1
Section 105 Interpretations, Conflict and Separability 1-1
Section 106 Appeals 1-2
Section 107 Variances..... 1-2
Section 108 Engineering Drawing Standards 1-2
Section 109 Submission of Engineering Design Plans 1-3
Section 110 Pre-Construction Conference..... 1-3
Section 111 Inspection Requirements..... 1-4

Article II Sanitary Sewer Systems..... 2-1
Section 201 General Requirements..... 2-1
Section 202 Materials 2-1
 Gravity Sewer Pipe 2-1
 Pressure Sewer Pipe..... 2-2
 Pressure Sewer Fittings..... 2-3
 Precast Manholes and Manhole Drops 2-3
 Pipe Bedding Material 2-7
 Steel Casing Pipe 2-7
Section 203 Installation Procedures..... 2-7
 Trenching, Bedding, Backfilling and Compacting 2-7
 Installation..... 2-10
 Testing..... 2-13
 Roadway Surface Replacement 2-17
 Clean-up..... 2-19
 Highway and Railroad Crossings..... 2-19

Article III Water Systems..... 3-1
Section 301 General Requirements..... 3-1
Section 302 Materials 3-1
 Water Distribution Line 3-1
 Water Service Line & Appurtenances 3-2
 Valves and Hydrants..... 3-3
 Pipe Bedding Material 3-4
 Steel Casing Pipe 3-5

Article III	Water Systems (continued)	
Section 303	Installation Procedures.....	3-5
	Trenching, Bedding, Backfilling and Compacting	3-5
	Installation.....	3-7
	Testing, Flushing and Disinfecting.....	3-10
	Roadway Surface Replacement	3-12
	Clean-up.....	3-14
	Highway and Railroad Crossings.....	3-14
	Stream Crossings	3-15
Article IV	Streets and Sidewalks Standards	4-1
Section 401	Streets – General Requirements.....	4-1
Section 402	Street Standards	4-2
	Clearing and Grubbing.....	4-2
	Grading and Compaction	4-2
	Street Construction.....	4-3
	Pavement Section Variations	4-3
	Curb and Gutter.....	4-4
	Cut and Fill Slopes.....	4-4
	Street Grades.....	4-4
	Street Intersections.....	4-4
	Sight Distances at Intersections	4-5
Section 403	Driveway Approaches.....	4-6
Section 404	Sidewalks	4-6
Section 405	Installation of Improvements in Street Right-of-Way	4-7
Section 406	Quality Assurance.....	4-7
	Project Conditions.....	4-8
	Examination	4-8
	Repairs	4-8
	Surface Preparation.....	4-9
	Hot-Mix Asphalt Placing	4-9
	Joints	4-10
	Compaction.....	4-11
	Installation Tolerances.....	4-11
	Field Quality Control	4-12
Article V	Storm Sewer and Drainage Design	5-1
Section 501	Minimum Requirements for Storm Sewer and Drainage Design	5-1
	Drainage Area Plan.....	5-1
	Hydraulic Data	5-1
	Plan and Profile.....	5-1
	Field Study.....	5-1
	Storm Water Flow Quantities	5-1
Section 502	Requirements Relating to Improvements.....	5-2
	General Design Requirements	5-2
	Specific Requirements for Various Improvements.....	5-2

Article V	Storm Sewer and Drainage Design (continued)	
Section 503	Runoff Calculations	5-3
Section 504	Sizing of Storm Sewers and Drainage Structure.....	5-4
	Design Tabulations	5-5
	Street Flow	5-5
Article VI	Storm Water Detention Requirements	6-1
Section 601	General.....	6-1
Section 602	Storm Water Detention Plans.....	6-1
Section 603	Method of Evaluation	6-1
Section 604	Volume of Detention.....	6-2
Section 605	Method of Detention	6-2
	General Location.....	6-2
	Dry Reservoirs	6-3
	Open Channels	6-3
	Permanent Lakes.....	6-3
	Parking Lots.....	6-4
Section 606	Verification of Adequacy.....	6-4
Section 607	Control Structures	6-5
Section 608	Detention Basin Alternatives	6-6
	Conveyance Improvements.....	6-6
	Buyout Option.....	6-6
Article VII	Grading, Sediment & Erosion Control	7-1
Section 701	Goals and Objectives	7-1
Section 702	General Design Guidelines	7-1
	Temporary vs. Permanent Controls	7-1
	Sheet Flow vs. Concentrated Flow	7-1
	Slope	7-2
	Soils and Geologic Setting.....	7-2
Section 703	Grading Permits	7-2
	Permit Requirements.....	7-2
	Permit Procedure.....	7-3
	Plan Requirements	7-3
Section 704	Other Permits	7-3
	NPDES Storm Water Permit.....	7-3
	“404” and “401” Permit.....	7-3
Section 705	Design Standards & Criteria	7-4
	Grading	7-4
	Sediment Containment.....	7-4
	Erosion Protection.....	7-6
	Temporary Construction Entrance.....	7-8
	Cleaning Streets	7-8
	Damage to Streets	7-9
	Dust Control.....	7-9
	Sequencing and Scheduling.....	7-9

Standard Drawings	SD-1
SD 1 Sewer Line Trench & Bedding Detail	SD-1
SD 2 Section – Typical All Manholes	SD-2
SD 3 Manhole Frame & Cover Detail	SD-3
SD 4 Drop Manhole Detail	SD-4
SD 5 Service Lateral Detail	SD-5
SD 6 Water Line Crossing Detail	SD-6
SD 7 Water Line Trench & Bedding Detail.....	SD-7
SD 8 Fire Hydrant Installation	SD-8
SD 9 Gate Valve Installation	SD-9
SD 10 Tapping Valve & Sleeve Installation.....	SD-10
SD 11 Water Meter Installation Detail	SD-11
SD 12 Service Tap Detail.....	SD-12
SD 13 Thrust Block Detail.....	SD-13
SD 14 Highway Crossing Detail.....	SD-14
SD 15 Stream Crossing Detail – Sanitary Sewer.....	SD-15
SD 16 Stream Crossing Detail – Potable Water	SD-16
SD 17 Standard Cul-de-Sac	SD-17
SD 18 Street Details.....	SD-18
SD 19 Pre-Cast Curb Inlet	SD-19
SD 20 Recommended Street Connection-Sight Distance, No Stop Condition for Collector and Local Road	SD-20
SD 21 Recommended Street Connection-Sight Distance, Stop Condition for Residential and Secondary Road	SD-21
SD 22 Recommended Street Connection-Sight Distance, Stop Condition for Residential and Primary State Road	SD-22
SD 23 Street Repairs.....	SD-23
 Appendix A Hydrostatic Testing	 A-1
